Symbols glossary

 <p>4 stars freezing compartment for better food preservation.</p>	 <p>A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.</p>
 <p>Smeg Active Ion system neutralizes bacteria, mold spores and all impurities responsible for unpleasant odours and food spoilage. Thanks to the generation of ions released inside the refrigerator, a natural air purification process is activated, allowing even longer lasting food storage.</p>	 <p>The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.</p>
 <p>LED display: to show programmes, functions and options selected and the time to the end of the cycle.</p>	 <p>Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.</p>
 <p>Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.</p>	 <p>LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.</p>
 <p>Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.</p>	 <p>Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.</p>
 <p>Air plus: keeps food fresher for longer.</p>	 <p>Natural Plus Blu Light: This unique Natural Plus Blu Light system works with nature to increase the storage time of fruit and vegetables.</p>
